Mr. Jason Kepler
Aero Twin, Inc.
2403 Merrill Field Drive
Anchorage, Alaska 99501

Subject: Alternate Method of Compliance (AMOC) to AD 2006-01-11

Reference: (1) Aero Twin Letter, dated February 7, 2006
(2) Aero Twin Letter, dated February 21, 2006

Dear Mr. Kepler:

This office has reviewed your requests for AMOC to AD 2006-01-11 presented in your letters of reference 1 and 2, and finds the following:

1. Aero Twin installation defined by drawing FP8-1, approved under FAA project NM-100A-9002-6, is acceptable as an AMOC for paragraph (c)(1) of AD 2006-01-11. This installation is **only** an acceptable AMOC for Cessna Model 208 airplanes **not** approved for flight into known icing conditions. This installation is **not** an acceptable AMOC for the Cessna Model 208B.
2. Aero Twin installation defined by drawing 208-ICE-HNDLE, approved under DAS STC SA02261AK-D, is acceptable as an AMOC for paragraph (e)(1) of AD 2006-01-11.

Should you have any questions concerning this issue please contact Mr. Bob Busto at (316) 946-4157.

Sincerely,

A handwritten signature in cursive script, appearing to read "Margaret Kline".

Margaret Kline
Manager
Wichita Aircraft Certification Office
